

*Minds Can be fooled
but the biggest fool doesn't mind*

FORWARDS:

Depression is a beast that rear its ugly head in many forms, confusion extreme conclusions, lashing out random hate for one's self and others. Words and actions are laughed at but the pain inside is real we hope that it's just a passing thing but sounds echo in the mind tormented worms crawl around the muddy murk of the artist mind. I hope you enjoy this small look into very bad days for in the ranting anger there are truths with no other way to try and say them. I listen to the mad man and the thieves for every man and women have a story to tell some whisper some yell. We are the loudest planet in the universe but yet communication breakdowns are the leading cause of murder robbery war poverty, in the older days just being a bit different would get you locked, shocked, and filed under vegetable. People would have suffered in silence and maybe harmed others due to the fact nobody knew they were nuts certifiable hook up the batteries chomp on the bit hold on loonies' this will hurt a bit. Witch hunts to institutional living facilities government intervention and a morphed society. We make our way to the same light just some of us want to bust the light and others like moths to a flame, going to get burned. So as you laugh no this crazy doesn't know it's crazy but the madman is angry still.

Minds can be fooled but the biggest fool doesn't mind.
Standing up to or for things is the easy part don't let your
progress go to your head power drunk.

Leaders are not born made or otherwise leaders are people
that can't walk away without having a bunch of people follow his
lead.

I am still a punk and I say Fuck the USA and all the things like it,
we used to be a better country take Canada back Flood the
government with questions new bill proposals make them
needed cause smear problems with Alberta and shit that they
should be dealing with only so much will

actually run on auto pilot, the idea is do not break the law but
on a government level question it. Then if they do not come back
witch is there job I thought, they can be ratted out to the queen.
Anarchy is small doses will help at this time. Ottawa is pussville

for primey the primitive PM it's like these people in Canada are in a fucking dum coma...wake up wake up if terrorist come here in the next three month they will just RUN Canada no fight involved. JEHADI NATION get used to it, if you fail to do somethink (like take the fucking hill ya bastards.)

your kids will learn about guns mind control GOLD OIL and DRUGS

ww3 leads to world war you and me go Joe. There is a voting class they are responsible for the downfall of our "CUNTTREE" dumbasshole and his American mafia cronies lead the old senile folks of this country down the garden path of lies and deception. Stupid is as stupid votes for forest and there ain't nowhere to run the USA zombie nation is already the ones terrorizing the

world freely and with our mind fucked blessing. BASTARDS SAID
“NEVER AGAIN.” They should have all died in nam
instead of showing we will do this for you give our lives for your
lie to the world they do not care and frankly neither do IDie
die die.

My cunt tree this is your funeral I'll be seeing you.....in HELL.

Power the earth with the flames of hell, copper wire heated
powers your hate with the flames of hell A flame came through
town most likely from hell A flame that Hitler himself gazed
upon, we stand on the edge of a fire ring that is growing hate

makes it bigger, greed unfulfilled lust vengeance wordplay and all other forms of deceptions we play on other minds.

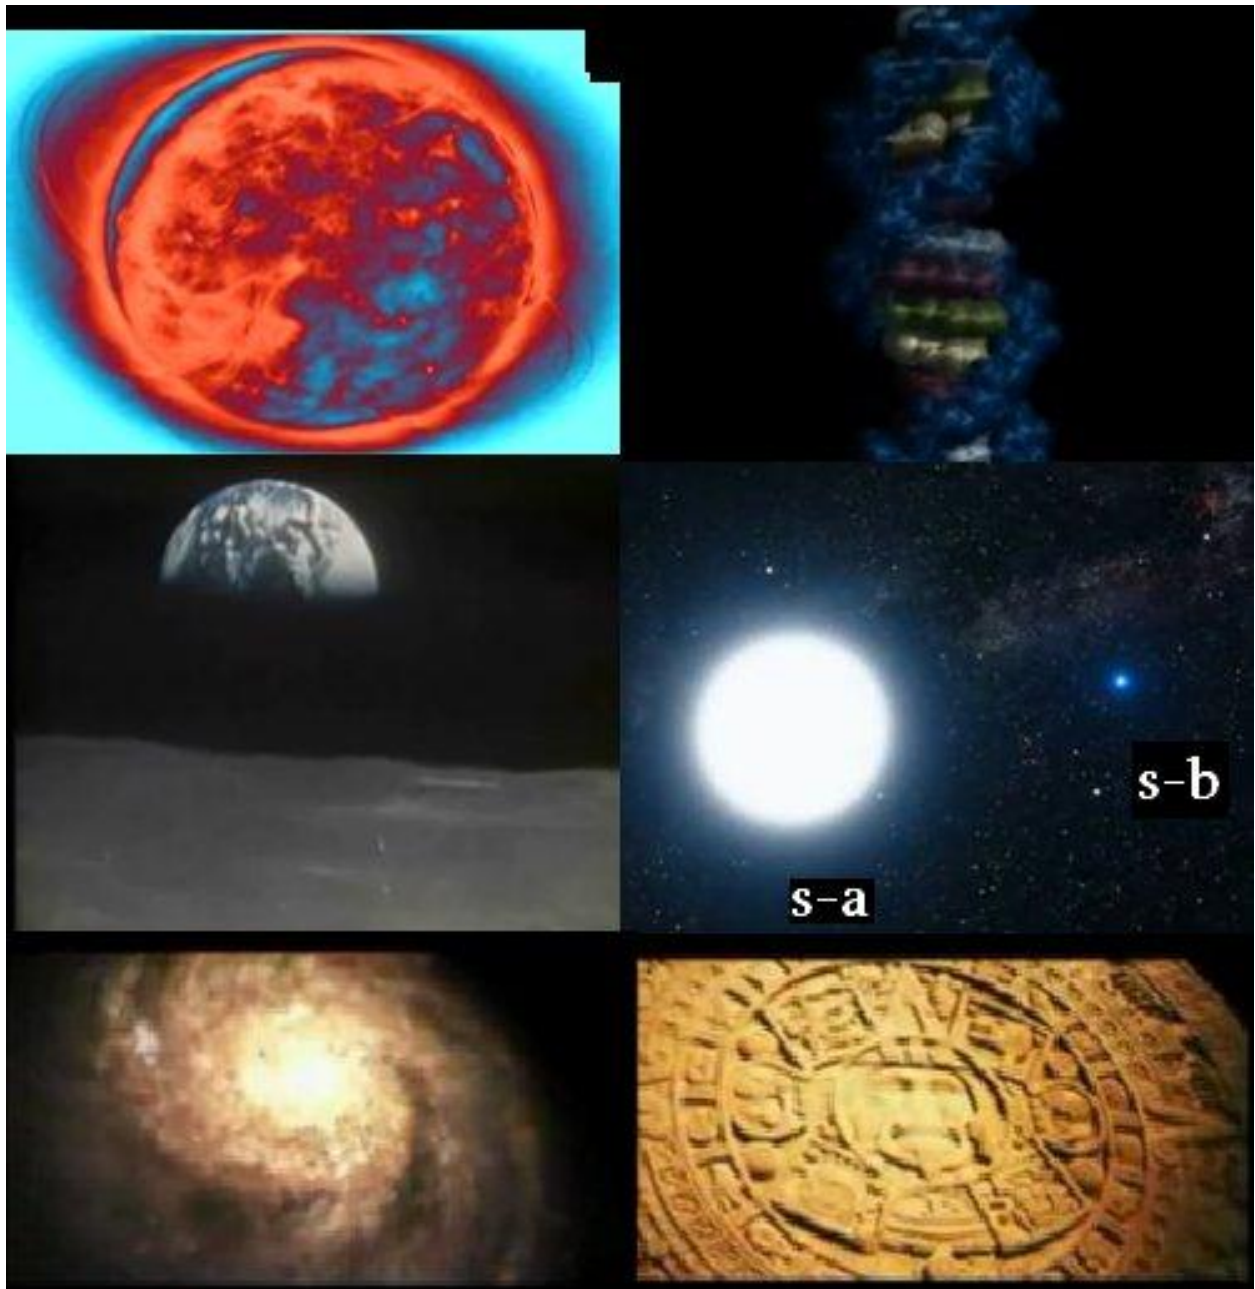

When the fire grows dim in man his/her fight is gone then they become complaisant searching only for a past that is not painful to remember but the fire lights your way without it you feel low you are defeated at that time.

Here is some new flames from hell for you. Jews are a Religious bunch'a nuts that spread racism hate greed and they practice violence Gods people would not be as into fucking the world as the jews are.

The black people are racists you give them a black president and instead of putting down the fight they say he's to chocolate RACIST BASTARDS he's blacker then me ya dumb fux. Fags sorry but I must be fair, they fight to be non productive humans and party at the clubs they stop getting beat up and murdered all over then they say from that lets get married but we will never need a devorse cuz we understand true love more then those hetero-losers, then they need to kill to get rid of those queerlovers to haters that beat and run and come back and try to beat there guilt out of the poor queer, oh I am being FUCKING sarcastic, they do not know how to interact with the opposite sex that all and they try and put on a happy face but well no point in slaughtering the condemned already.

Function or die. The muslim killers of faith, judges in their own mind of religion, were do we start the USA made muslims something they are not so that we could have an enemy and to a Krizty based society they are a threat, but the true threat lie's in the extreemists of any group killing women raping dominating segregating all this stuff is bad but let us put our shoes up and walk on another foot non extreme muslims should be kind to everyone but there women listen

to all opinions except anyone not muslim and they as the damn jews, believes they are gods children/people, the chosen few that gods laws do not apply to them.

They are right self proclaimed and fully made control and controlled ignorance and superstition. Any people of worship should never unless all out battle dictated they should never try and push their beliefs true faith leads a good example and then lets you decide.

These religion pushers are pushing hate intolerance and yet most of you support it in some way, did ya do up X-mass how about easter ya dumb fux.

This is the fire you should have if ya don't like what I am

saying think about your rights being squashed out like the rights of the white power guys the neo nazies thats right deasent people that didn't do shit to you fucking PC winerrrz. you have the rights then so do they if a faggot can kill by fucking another dude they are murderers guilty of murder, jews are guilty of telling mistrueths about the war to become the racist they supposedly were victims of ,the black don't be

racist hail Barocster lay him some skin rap a bit help him learn not to be an oreo and he could be the first black president instead of just another scapegoat the world see no colors until it suits it convenient racist.

All other wrong groups just find some balance and shut to fuck up, we have the same rights ,so you do not want me just saying what ever cuz if you all could even get what I am saying here there is a clearer way to say ya fuck my world one more time and we are gonna shit fuck your kind of people into His-story and it would be all about groups of people who got together to try and fuck the world up, and almost did it until humans went ape.

Try and be a good person do not judge because you are not perfect nor am I. and wouldn't like what some of us could say about your insecure little self so precious fresh'outa'mammystwat still smells

like tunaand the mailman's aftershave, we are all brother and sister , our parents and their parents and most likely alot of are cheating and getting away with it good your fucking the moral fiber of humanity to many issues boiling down to "If the world wasn't fucked alraedy, these

fuckers fucked it but good!" join the fight be polite ass holes.....

For all great things there is great struggle but the fruits are enjoyed

by only those who worked hard struggled and did without most things that others had, in the hopes to get what they are fighting for, as one person retells a message and it all gets jumbled by people adding deleting and making up parts they

think they remember, can we say these people even know what they are really fighting about? They can be manipulated in one generation, you all over 40s due to ignorance in your younger years my generation(X) had to find out some things about government control police policy conspiracy

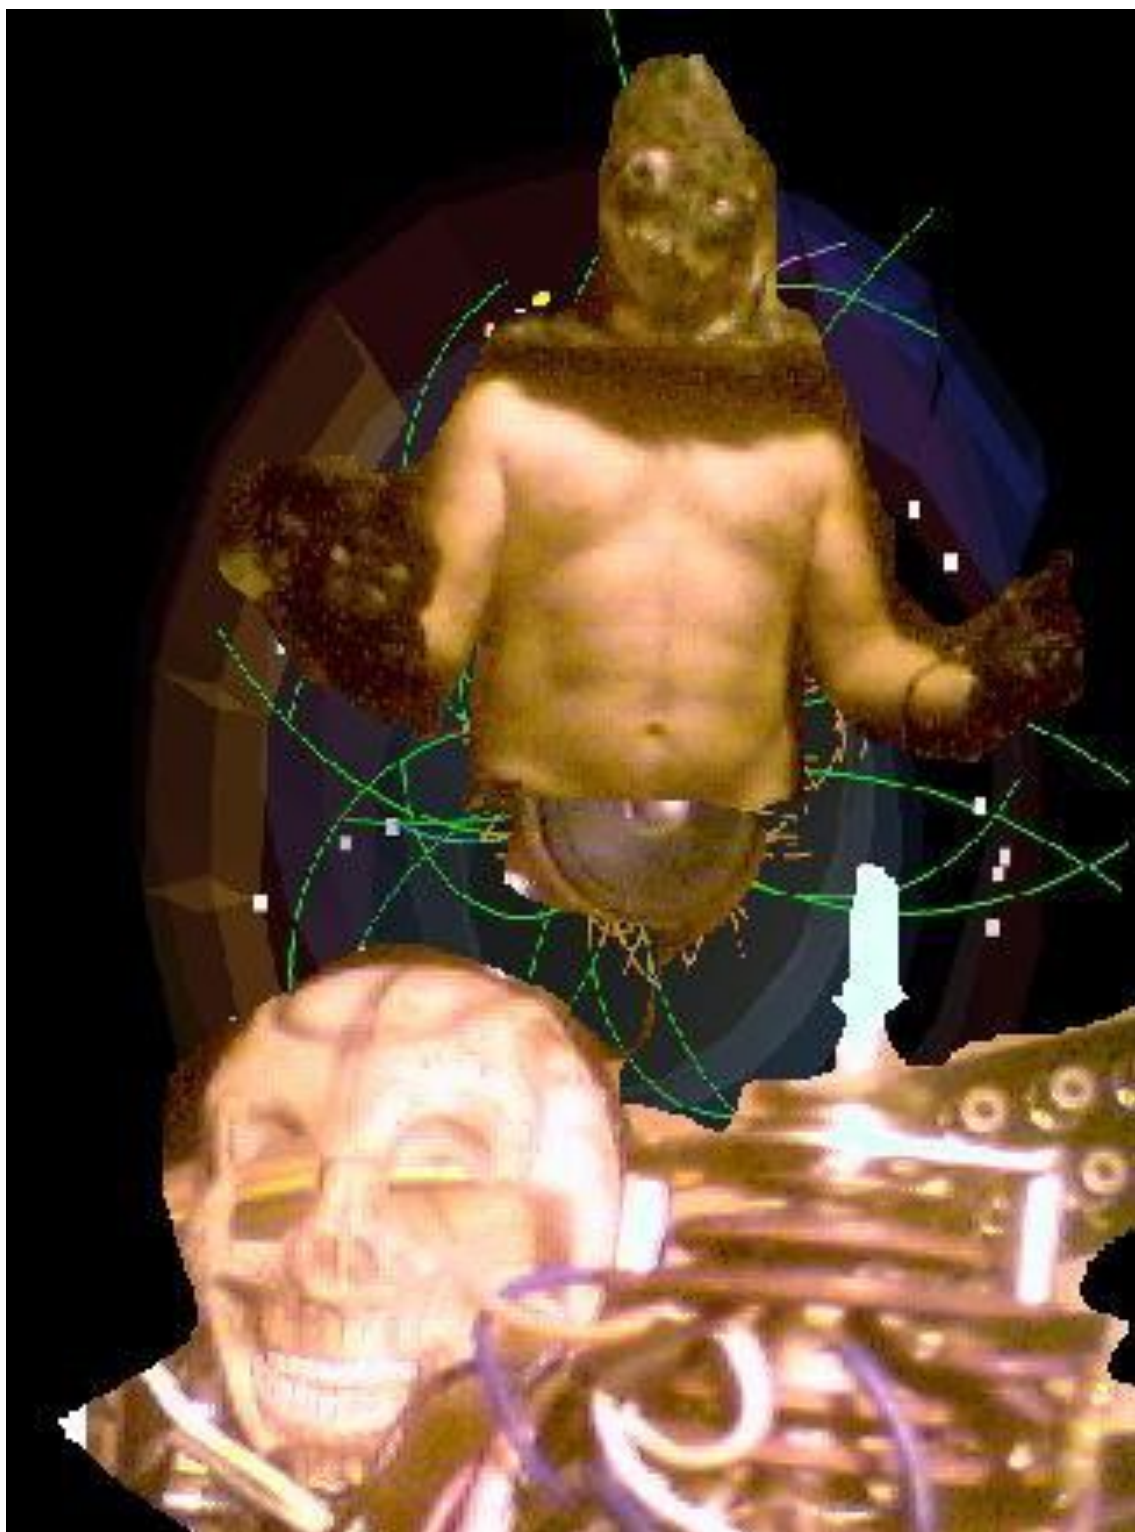

of the lizard people of the cattle race debt slaves. We found out that many of you to busy snorting coke and fucking everything that moved couldn't care less about this earth nor the people or animals in it.

So industry consumerism and debt came to earth a settled in the easiest robbery in the history of man, robbed them of their money freedom time space air food freedom freedom freedom you all gave it up and said I AM SCARED and I need a hand to hold me through this scary life, that they made from Hollywood leftovers shock and aww take care of your own before destroying what others of created America the slave masters of idiots.

We gave up everything to a faggit bully butt fuck. A poindexter of such ridiculous gull I can't believe they don't attack themselves daily oh wait they fucking well do.

How many races of people have been fucked by the good ol Ugly Soulless Assholes fuck your bully tactics? You can kill some of the people some of the time and I know that you can blow yourself up with the world you have threatened for years but what does the winner win if everything goes boom fuck America should have all the social grant money it ever spent forced to give back to the world.

They make the least sense of any country in history and come to stupid decisions we are a bad world for letting the youngest of all our cunt trees run rampant like a bad fucking kid.

The people are slaves of example showing how we all will be if

this bastard cuntree doesn't fall they are bankrupt and spending millions on killing their own it is population control like the flu shot we all condone the random killing of our kin by these sado masochistic puppets of doom and denial. U STUPID ASSHOLES understand stop assimilating. Fuck yer all alittle new, fuck you would not let this go on to your kids in a school but we buy into it daily support a free earth not controlled by nebs and yudes but buy all of us together African, Chinese, from the bad side even Japanese Hindi native whiteass mutha;s and all other kinds of people racism is not something you will stop ever until you do not see races anymore until jews give others the right to worship in peace and the pope can take his views to his people or shove it up his papal ass the threat is for your mind body and soul loose this fight and you will never see how to get out of the control most of you already feel controlled well good

luck to you weak mind fucked kids that believe you when you lie and say just do things there way it is smoother. Never mind stupid is as stupid does and from where I sit stupid is you'z for believing little men in suits got ya buy the short and curly's. Well he does if ya let him, buy the way they are taking your kids minds with videos games movies with no point Twig-lite just to try and get the hay day of mind control

back when we stopped existing to survive and let uncle sam and other scape-cabs that wanted to take us for a ride...well we all payed but ware's the ride stupid fuck if this happened gambling nobody would accept defeat like they have and you would never keep in touch with the dealer to pay again for this one time game that maybe we were not the generation that signed in for this we are not as stupid as our ancestor and we want out from the thumb before it kills us. Dead stalk

for a cattle farmer means your broke dead whatever as well. Americas going to put us all in prison they can't afford it, so what the fuck they will kill us all they need the money and the power that comes with a pretend dictatorship witch is what north America is.

You are one little step closer to freedom, and with it comes the fight. This is a window into the mind the bottom rung person of your money world from the mind of the poor.

xmass this will become a dead holiday so enjoy it now.

The xmass shit is over everyone is either happy that everyone was happy or happy it's over.

You know why you hurt in the loneliest places why sorrow shadows you.

Why you can't smile

Why nothing is right.

There is a second set of nerves in your chest you may know it as your chi your power center or just simply call its effects on the physical body's perception of pain emotional that is. Some people call it there spidey sence due to the fact that spiders character was mimicking our sence of foreboding or caution.

Spidey sence , women's intuition at one time we called it COMMON sense because people could be dumb as a sack of hammers but with a little common sense he/she could gimply make it through life with a busted brain box.

As we stopped asking why for any other reason but to try and get our own way no matter what, then people became like they are now it is fair to say there is no comparison from mentality now and pioneer times where we were all to busy surviving to listen to the shit news of the day the distraction on the hour the half an quarter hehehe dumb fux in 2 short generation you stopped asking why is this the way and you stopped being pioneers you just became drones of complaints and complacency you hate what you are doing lets go do it again ya hate your life what's in and your so called friends. A wall will be hit where you are thruster to a place of great power in the world at that time if you choose freedom a class of people will burn away the rich will always parish due to the fact that without money we are not all equal but we all have the chance to be held on our own merits and what we do will be law of the new world order.

Oh yea and to the rest of ya fuckers fuck your own fucking fuck cuz yer all blind and dumb(witch means can't speak)

and Igneous (which means hard) I put this way so I aint use'n myself no big word psychobabble that may confuzl for shuzle by Nuzlemuzlfuckstalls if ya don't understand this part I wasn't posting this at you and you know that cuz ya got yourself some sence of a old nature. Our ancestors used many power

like don't follow the stranger of the cliff one you don't know them and two its off a fucking cliff geeeeeeeeez.

Grab a brain, stop listening to the news if ya don't like what you see change it if it doesn't change get some friends to stop supporting all things that distract you from a little thing calledLife, try it, it can feel great and old skills come back like common sense becomes common for you again and you can use that info to save the world one person at a time find your true earth self be it and others will be it as well.

Be part of the system that propagates lies at this time to the masses and count your days.

Critton of another mutha-fucker in the galaxy. Who will you vote for in the next election of people in charge of your psyche the lizard people the space people the neushwaben people as a collective the anarchist the space being or the other dimensional travelers that often blend in fuck shit up and then leave our planet a little more fucked. We should say at this time like the vets say "NEVER AGAIN" so that we can insure it will happen longer than ever in the past. There are people that say no war but they are outnumbered by a smaller number.

I am legally not allowed to smoke pot anywhere at any time but it changes me from, puff puff "right mon I live on earth a child of the stars imbedded into the wall of the womb of earth and you all are other emotions that I cannot display with my face so I made you and the opposite for you you made me we flow like water from an ever melting ice mountain the air is clean people are good beings of like chibbys hard to hate them but even harder to hate only love is welcome here." to no puff" and I see you shit monkeys in the asstree of life jerkin the gerkin I like to call me the perpetual victim of shit loven fuckwads like you and you and you and you and you andyouoyuuuykjdsbkjkd sdakjdssd jds fuck you I hate your fuck world of cuntinng shit mutha fuck you basterd commy nazi jew shit fucker Hate you more now then fucking minutes ago fjadfjssdkjdsjkjfsdfuck fuck bobsagit fuck fuck fuck!!!!!!!!!!!!!!) and if I get caught I am to believe that I am in trouble, well puf puff and I do not give a goat

not even a little one to the scamps that wanna be tuff policy enforcement (cops) g men little watcher guys oh they are harmless unless you give them power. A long time ago we stared

into the face of an angry dog we flinched and will teach generations of kids to fear that dog it bit us and still knows on the bone we used to share with each other know that bone is up for grabs they can bark prison new world order terrorist threat murder fear lawless casualties but I fear not for I am a Satanist I am on a mission from God and a HIGHER POWER there is more to lie-f then Gold OIL and Drugs there is our own Good OL Distractions. Play music, make art find some land and grow a garden they have the material world by the balls. fuck it watch the rain come in on a summer day, if that sucks you suck, well take care of your selves today, and remember if you are in control of masses you are doomed mark my fucking words we are not hippys we are punx and you will tremble at the stature of our analworld cockfucking machine. It is effect everyone in the whole fucked world of fuckers FUCK FUCK FUCK your all so stupid singular minded and I imagine stuck in your own self importance like the rest of us. Have a good one and be nice to someone fuck its not hard ya shit headed fuck nuts. I say it cuz I love ya if I didn't I call you all lemmings and I would sit back and watch the show.

After the end it is said that the survivors will revert back to primitive. Wasteland times but what if there was a struggle between the primitive survivors and the nonpimitives lets see what would happen.

We have ate the body of men drank the blood of innocents. We have screamed at the def gave the finger to the blind, Loved ourselves for hating another so well. Ustification for the absurd we have none we do what we do for no reason. What if one had a purpose. Like zombie drone humans move in to slow and stop that plan in the hopes that we get a reward for every person we can stop from doing that witch we do not understand. As a whole we are defeatists winning is for the other guy.

The roads we all walk on were made for others to do over all others and have then do nothing but for the one. Fuck everyone this path leads to the end we are all in a holding pattern. Fuck your world its plastic and the Dungeon Master went home, Roll a 20 sider and a 10 ya need 20 or more for me to care odds you get to keep playing even you are attacked by an 11th level ork battle party for those of you who don't know that means, death 7 or more on a 10 sider and you make it out with just minor damage. life is a game most of you made up new ones to play because the big life one is Too hard, aww poor babys fuck you learn or die stay to fuck out of functioning peoples way.

Power between two points can be strengthened by rotating in opposing directions. Power can be given taken and like most of you lied about to make you feel like you have the power but they actually pull the strings. Balance anger with apathy happy with emotionless caring. Balance as you walk the line between good and evil. Life death thought with reaction space and antimatter. Nazies and jews happy nobodys after ya anymore so quit your wining and don't bring guns to my fucking party I suffered enough to find out you can call me a Nazi or some other derogatory name but I call you nig-OR-jew I am bad right, nope I got one thing on my side, the first black pres. and the statement you might remember Fuck you fuckers. Jesus walked the earth talking to all peoples to warn them that a scurge was coming that would pretend to be friends with all man but they would plant the seeds of contention and discord lack of love understanding. He was not successful he was killed. He told us all within the lies, told about this regular dude walking that

we need to understand life not (lie-f for failed.)

I was born under a bunch of rules but I didn't need them to tell me to be proper to people and cause and effect good things will happen and the opposite is true equal and opposite reaction, science. Here's a good one a billion or so people are born, a blanket of rules are laid on that being of earth and though it is flawed quite a bit we conform
.....hahahahahahahahahahahahahahahahahahahahaha.stupid fuxhahahahahahahahahahahahahahahahahahaha. May law says if they made a law they want you to not do that so don't but like weed or girls wearing slax in public stupid anal laws that simply facilitate filling up prisons and meeting quotas yea the jokes on you. Stay law abiding and see this world really work cops like Rome have a job to make you believe in the police state due to the fact that every second new being come to earth to join the fight for your free mind. This world was not given to anyone that your ancestors didn't give it up to. The first person that

followed instead of leading was the bad apple that spoiled the whole damn bunch.

A bunch of bad apple will not make itself better if you put one good apple in a bad bunch it goes bad. Happy culling do it yourself because they got your number your parents gave you to them and you followed sorry talk to great mamamy and papapapay and scream don't do it kill the snake oil salesmen they are selling something run! Where did the first dollar come from and who did that guy owe for getting.

The ability to mod electronics right now is great we have what is known as disposable teck like mp3s/4 player dvd players digital cams usb hubs laptops ect.do we stop to check how much of this stuff interacts or even could be used to enhance the other. Take for instance the advanced toys like robosapien could they log online mod them selves and each other,I tell people when circiut bending don't bend artificial inteligence but maybe if we reprogrammed the toy toy programm itself we could truely be amazed.....or dooommmmed!

I live in the wind that blows names stick to others but
I sit nameless Human number 666 awaiting export
to the afterlife a zone of sleep and wind , the wind that
blows out there is welcome ,its an old friend that
comes by like a yearly check up on earth.

The wind lives in the spirit world blowing as it has done
sinse earth was creating itself. I will be dirt some day and this
wind will pick me my dust and ashes up and if you look hard
enough after death you would get a grain of sand in your eye on
that grain I will sit my spirit ride that grain into your eye. Then I
am no longer the wind unseen you shall see me notice me love
me and most of all miss me with all of the ache of life kicking
you in the guts, hysteria wells up in a somber glee all feeling are
feld but you will be left with an empty cold.If the wind blows
around in circles we go if it blows streight we move forward to
new life

Day after day I tell you all stuff. Today I think I should say I will lodge onto a reto BBS that's oldschool for Bulliton Board System. I would post that every generation has its Armageddon but lets count together how many things happened for real. Well the world didn't end any of the predicted time year 2000 was the end but Chinese calendars have them into the years 3000 do they live in the future but we all died no nothing will happen unless you all finally freak out as you are great for, try this keep your fucking heads on and stop using the end of the world as an excuse for deviant behavior laziness generally not helping in

watch it. There is a more real movie made just by some guy or girl nerd square or hepcat made it with 10 bucks. Why is it better Hollywood spends more money on hype then the actors ever since movies came about. The spirit of Jack Warner lives but HIS legacy has been enveloped by the seedy stories coming out of the cesspool of human tragedy lost dreams used up whores that were good girls of loving moms and dads, all lost to the lust of the limelight that no doubt they were paying for if not in many other ways but by not getting the cold hard cash just percs and stuff loved for the moment and when old man Warner says you ain't the shit well you ain't shit. Me and Manson are an experiment the result I am happy(ish) I make whatever music art or comment on what ever To fuck I want Manson sings don't take no shit from bullies and the world blames him for giving their kids guns and not teaching their kids to be good. If you are letting Hollywood music Manson shape your kids view then you are failing like the rest of the world. Hollywood Manson me, you fuck snot shit fucker we are not your moral guide blame us and you are the one not only to blame for not teaching your kids right and wrong and your not understanding your role in the family unit, you become a little more like the dysfunctional family unit that produced such great hits as rebels with out a clue and blown with the wind shit stories that make you think of shit you could of never taken the time to think about before unholywood was invented. Imagine if the Warner brothers had of told the truth been educational informative worldly you know all things that were kept secret because of the installing of the hollywood machine into your world to tell you untruths as facts an swear by it live a lie watch the film that tell you how to respond to the realization that this is your plastic world and plastic children melt see ya when I make a movie in 2013 about how this time people believed in media so hardcore that they fuck up and die kill each other and after we tell our kids all of them about subliminal messages the lies in advertising the fakeness of hollywood puppets and not to believe things just cuz its on tv new or any other corrupt mass media device. Make believe should not make you do. But there is an oil war started by the jokes of power a hungry warner and hitlers dad what ended up happening is well HIS story you can find out the truth in the

shit.

The newest of the new worlds to order is Satanoranimus 9 hell is a playground of sweetness kindness and love compared to S9 were the void ball shines blackness witch contains sulphur and death rot. The peek of the day it can range from -99 to 600 degrees in the nuker (summer) rust coats all metals like a skin of protection. We got here by parts from satellites falling to earth circuit benders and techno geeks nerds punks anarchists banded together modded shit made ships and

koopdeegraPPPPUUUNNNKKKSSSSS In space the continuing saga of some brainiacs that went to space cuz diein just wasn't good enough. Our new home s9 shall be called Nibiru it is a planet carved about in ancient times on cave walls. Our whole exsistance is in the ancient history and sciences of the past. Modern thinkers tell us what is real tangible acceptable, this is not open for interpretation we make our own reality stylized and pigeon whole(able) we fit it in with something normal some widely accepted dellusion that one man wants us to live under.

The Anunnaki took our abilities away in egypt times started us at start again trying to work through our geographical difrences as well as language barriers culturs began seperating clans groups and other none individuals started about the earth bound and determind to keep this seperation so that one eliment of the being we make up stayes as a bogus individual as long as he stays fingers in his ears not hearing true reality being we are together will not ever be again. We are one you doing for you only are stopping the unification of the Anunnakian being from Nibiru created us in his/her image to live in conflict so that they can live in harmoney and peace welst looking on us watching for pit falls that would lead to this conundrum how to become one again we are all diffrent, but the same help others and give taking is for those who have done for...having is for the insucure...needing is a longing for that witch you didn't need to begin with. I held an orange in my mind in the night I woke up quenched. If this is too heady for you think of this.....Fuck you.

Now you do not be in my reality. people are only as good as they'r stalk the dumb gene ignorant gene and the lie gene. Hitler who like Charles Manson killed no human by his hand and people die for bushes action but he isn't the great fuer because he as a monkey man had no rights to claim the new world order. Hitler had done a great many things to help the now ungreatful german people. The actions taken to try and clean up this infection that has spread like aids accross our nation other nations and the world. People like the way things are because they are desendended from evil people that have a diffrent mandate then the Love admeration of higher learning and art that the stormtroopers were trying to defend.If you don't like what I have to say

YOU have something wrong with your ability to see the trueth,and fuck you.I want a world of mystics artist creators visionary Not this world of my money is your money and my land is rented from your king shit that you install every year I have a prob. with forced race separation this is what goes on now

Hide your hate and contempt for my world and the second coming of tyrant that sits with a lamb and dispenses death to all opposers, ya hope that 2012 happens

cuz if not there will be a stopping of this installed racist governing order and in with the new world order. So when you all getting on the kick of 2012 hoax remember most of you are racist sexist and any other practicing philosophy that makes you not understand or tolerate free speech art ect, you judge misunderstand and condemn me to live under a mock up of what you destroyed we live under control if you don't like take it out on the scape goat ME ya fucking weak minded shits I am a paddle and you are an asshole needing to be initiated into the order of

the human scum. Gas prices rising I got a great deal on some plastic cars ha ha ha fuck you if ya got a problem ya sure do. Take care and understand something I am tired of your opinion mattering I have my own I hurt no one and wish for a day were the Nazis really did clean up there back yard mine wouldn't be so muddy.

Out of poverty driven by a need to survive my great uncle jack Warner help start the star machine that still to this day chews up and spits out talented artist. Hollywood at least the movie part was founded on lies told to actor/actresses money promised and always made its way back into the new project. The star machine brings you people that you wanna be like lists to great to mention stars socialites deviants eccentrics all forms of dancing singing flying monkey. As Adam west boils his brains batty Sharon Tate is having an unhollywood abortion. Live by the guild dye by some psychos hands, then blame on the most Photogenic hermit that fits the part. We now work over and rework our looks images attitude, taking it all in as harmless entertainment. Our opinion on things can be shaped by the image of a great shtick now.

Boneheads go boning for UH BONES is a great title and in the end you guessed it he never gets the bones. Pointless drivel to distract you all from the world out there telling you all about the fanciful world of Unhollywood. Watch a classic today. Have a

great day fuck people over if that's your thing we will start calling you a pickle in stead of a good person. Fuck you if you can't take a joke you shouldn't be one.

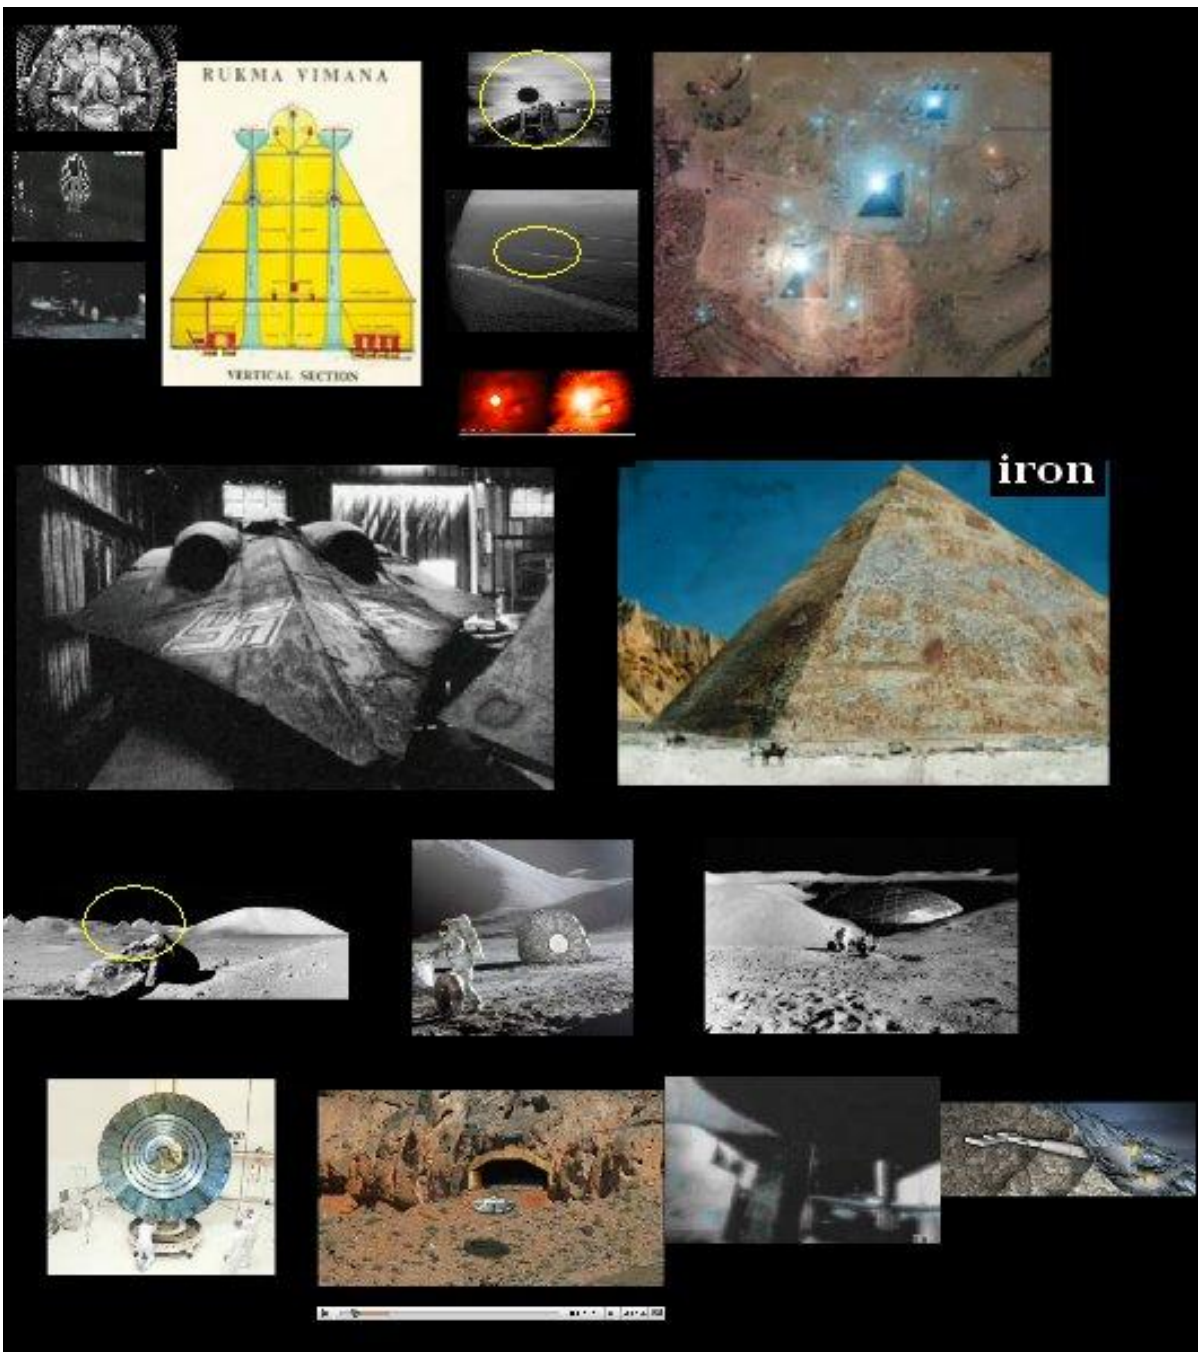

The rest of you have a great day help somebody and feel good head held high chin up and goosestep'n we are all proud today if not fuck you pud. I will die one day proud that I helped out this world but fucked about how that never got me anywhere. Shit you I am going to scottyland to play the baggy pipes at the sea that will tell the world what I think of it, I will play greensleaves.

People work to have others work to pay for their lives to be better then Joe shit heads like me and all the money goes to make others live well, I scrounge and save from nothing just to get nothing to watch others live better than me and know they did less in their lives then me and are rewarded for doing the dishonorable thing.

The aliens that trusted us to look after this rock will be back and pissed at all the ipod have'n excess on the backs of the oppressed and the mentally challenged people run the rest of us in the rat maze that makes no cents nor any dollars for that matter we work or collect money to give for a shit quality of life but yet if we fuck over a bunch of dumbes they work for us. help a little and friends you got. always taking your a fuck. Balance is not something to be tipped in your favor when Karma is involved don't play high stakes gamble you might roll snake eyes. We are not responsible for people who can't help themselves but they do to all you time money shit and personal space.

Thanx to free speech I said what I had to yesterday. now today we all have a responsibility to look after this world protect it from the negative being who wish you harm or just a boring time in life. You beings of PUD are known as waist of flesh no minds users fuck ups pud munches and the list goes on, almost forgot remembrance day. the oil the false battles being won over the oppressed, battles raging generation being finished by the blood of your kin so the bushes and obama's and all the other fat cat slick forked tongued demons that say we are right and you must fight, sleep well for tomorrow it could be the other guys turn to live with excess and decadence fuck you and your fucking pine box soldiers. I HATE YOU ALL EQUALLY. Soldiers are just following orders let's hope their souls rest with the

knowledge that we do not all support war as if it was on the other foot these fux coming into our land and killing for our recourses and to keep their standard of living much higher than our own we wouldn't like it but try and fight a nation that lets its own die in the hopes nobody notices that the have's are less then the have not's and if yer poor the military is not fighting for your rights and so called freedoms its greed oil and the feeling that those commie bastards didn't winwhy who to fuck knows by this point. Fight your wars until there is no more, faith in lies and billions spent in the skies so you can be free and one day try and fight it. How much money was spent on natural disasters in the states vs war. Your all fucking dumb as a sack of made up jewish corpses. Not on remembrance day you say. LEST WE FORGET>WAR IS HELL>fuck the world that fears itself so bad that it need bogus wars we are no minds to agree to the murdering of our young men and women for the sake of a CUNTry that fuxs its own daily. Suck it up eat the rich. I hate you more today cuz I

remember what you said and did. WWII "NEVER AGAIN," means until we want something someone else has and we will take it by force. VETS LIED when they said never again so I have little to no respect for them. If you have family in this lie machine I hope you arn't offended cuz I care as much as you care about me and my views in other words FUCK YOU BRAIN WASHED NO MINDS FUCK YOU!

People and their lives effect me that's fine but when mine effects there's I am done WTF. People can't be made happy you can help them but when they are done they realy shit on ya. Well good morning scum sucking mutha fucking dic wads I can be a happy guy but fuck if ya want I can destroy your world eat bugs and never shower. Hate is a hungry child that gets fed daily. You all nurture and grow hate in others and wonder were that all came from. As a young boy I sat in the woods and on cliffs(sudbury) and watch the morning mist ready for the day but then people got put in the mix. naternatter natter want want I am

angry give me more.....fuck yourselves Do you see what I see in this world?

no then fuck off you will never see the world like I do and its better see the sun the moon all birds smiles on faces. Freedom of art and music. Devoid of your problems fake anger yelling discontent with all that was promised to you by your god, who also said if it is not provided someone will be along that you can take from. Fuck that my life is not yours you like deal with what I deal with and fuck yourself and your god. I will post more music watch it and learn you fux. Hate is a street with two people playing chicken but I am one of them and I think I'm going blind cuz I can't see me giving a shit in this game its either you or someone like you cuz it aint gonna be me swerving so you best get out of my way I can't see me stopping or caring that I just wiped you of the face of easy street cuz when I got on this road of life it was labelled I am gonna eat you alive AVE.

so how did the dyslexic society read it as easy street not on my back, you can make an ass of yourselves but you ain't calling me mule and riding on my back. I am an armadillo so sit on my armor and I will turn to porky pine and quill ya. So fuck your friends they like it but me I am on with my show this is it. Make me angry I will take your world and burn it chew it and spit that no life roast out at your feet then force you to eat it scum, your life is an empty jar eat it or live but you have no rights to take any of mine.

So here it is went out today fuck people ass fucking pudmunchin fuck knuckles. Could I hate them more went 60 past a cop on my moped. I think I may have gave him a dirty look as well reverse rear ended myself with someone elses front basterd almost got me smokes on a 4 lane road full of traffic . life is a bowl of shit flush it down and some asshole fills back up with shit. like strangers you are all listening ...

This was not about the hate I feel for the world but rather the worlds hate for people they deem not of the same, it's a shame the jews, the blacks, the gingers, the fagz and dykes are all on the protection list but when people have an opinion they get the witch hunt blues.

Think before you judge and you glass house motherfuckers should not throw stones at your own reflection. It is bad for business.
